Project Proposal - DEVDYNASTY

PUPConnect: A application designed for university students, facilitating seamless service exchange within the campus community. From academic support like tutoring in specialized subjects to practical assistance such as furniture moving or event photography and other services, PUPConnect bridges the gap between students seeking assistance and those offering their expertise. With PUPConnect, students can effortlessly navigate through a diverse array of services right on campus, whether it's for acing exams or capturing memorable moments and many more. By enabling students to showcase their skills, the app empowers them to turn their talents into valuable opportunities for income generation.
