Sprint Retrospective – Sprint #2

What Went Well:

We successfully completed the backend of our signup and login feature. Our team also shows strong collaboration by having regular face to face meetings.

What Could Be Improved:

We faced challenges with the logic and implementation of the signup and login feature with its api endpoints. But as we progress, we found solutions on how to solve it.

What Needs to Be Done

Task that needs to be done includes: Profile Page and Client Page features for sprint 3.

Summary:

With the milestones we achieved by completing the signup and login feature, we mark this progress approximately 40% completion of overall project.
