For Sprint 2, the following tasks have been identified and assigned:

1. Client Page
   - Assignees: Jhon Lay Lopez, Jonnel Tocmo
2. Backend Implementation for Sign up Feature
   - Assignees: Krystel Castillo, Pearl Calderon
3. Backend Implementation for Log in Feature
   - Assignees: Krystel Castillo, John Patrick Perez
   -

Sprint Retrospective – Sprint #1

What Went Well:

We successfully completed the front end of landing page, login page, sign – up page, profile page, job page, and application page. Our team also shows strong collaboration by having regular face to face meetings.

What Could Be Improved:

We faced challenges with the design and implementation of the client page, causing delays of its completion.

What Needs to Be Done

Task that needs to be done includes: client page from sprint 1, sign–up feature, and log–in feature for sprint 2.

Summary:

With the milestones we achieved by completing front–end pages, we mark this progress approximately 20% completion of overall project.
